

## Camp Australia's 'We make kids smile'

We thank you for all your continued support and patience through these challenging times. We understand Outside School Hours Care is vital for many parents that are not able to work from home, so that you can continue to provide essential work for the nation.

We believe strongly that children learn what they are passionate about when they are exposed to it, so here in OSHC we give them a chance to explore, hypothesis, imagine, and create.

The children were really engaged in national science week and in particularly engaged well with the experiments offered through-out the week, please see the pictures of some of the experiments completed by our children for Science week.

Ocean in a jar

Science week posters

Volcano and its eruption

In our OSHC space we have planned in consultation with the children for the upcoming weeks activities so children can explore.

<i><b>MONDAY</b></i>	<i><b>TUESDAY</b></i>	<i><b>WEDNESDAY</b></i>	<i><b>THURSDAY</b></i>	<i><b>FRIDAY</b></i>
Making handprint trees with paints (Paints are always a very good source of fun for children, today we are going to paint our hands to make flowers on paper)	<b><i>Making robot with the cardboard</i></b>	Healthy eating Cooking activity (Making Noodles)  Art and craft activities 'flowers with paper' and showing the art & craft skills	<b><i>Making relaxation bottle</i></b> (When a calming bottle has items such as glitter in it that move slowly, children are often mesmerized by watching their slow descent and this calms their breathing and helps them regulate themselves and their emotions)	<b><i>Making Playdough</i></b> (Making playdough is very calming activity which helps to improve children's fine motor skills, social skills and support literacy and numeracy as well)
